ETHERNET CONTROL SYSTEMS

CARD READER CONTROLLER

Overview

The ECON Card Reader Controller (CRC) allows integrators to easily incorporate credential based access control into the ECON integrated system. The CRC provides eight inputs for Wiegand 26 bit format credential readers such as prox, mag stripe or biometric. The CRC is available in a 1 RU format that fits easily in open frame or enclosed data racks as well as a panel mount version for use in wall mount enclosures. Both formats allow installers to easily access the wiring connections on both the front and rear panels. The rack mount format also affords installers the use of standard 19" rack wire management hardware.

Control

The CRC provides 8 reader inputs that include control for red LED, green LED, Ground, + out, Data 1, Data 0 and beeper. Like all ECON I/O, the TLC allows users to associate any reader in the system with any output or door.

Management

The CRC includes an LCD display to that shows device information such as IP address, subnet mask, gateway etc. as well as the status of each input and output.

The CRC can be easily configured using the ECON Configuration utility or through the embedded web server. Users can edit network settings, monitor input and output status and view or edit other controller parameters.

Communication

The CRC utilizes industry standard 802.3u fast Ethernet for control communication. Like all ECON controllers, the CRC utilizes a highly secure encryption algorithm to guard against unauthorized control or monitoring. The CRC utilizes ECON's Open Protocol Integration platform (OPI), which allows integrators to utilize either ECON's powerful CAM software for control or most major PLC control packages.

ETHERNET CONTROL SYSTEMS

CARD READER CONTROLLER

Specifications:

Card Access Made Easy.

General

Rack mount Dimensions (H x W x D) .....1.75" x 19" x 7.75"

Panel mount Dimensions (H x W x D).....2.15" x 6.25" x 12.75"

Rack Mount Weight.....6.1 Lbs

Panel Mount Weight .....5.2 Lbs

Environmental

Storage Temperature..... -40° to 85° C (-40° to 185° F)

Operating Temperature.....0° to 50° C (32° to 122° F)

Storage Humidity.....5 to 85% relative humidity, non-condensing

Operating Humidity.....5 to 85% relative humidity, non-condensing

Electrical

Rack Mount operating Input voltage .....90-264 VAC

Panel Mount operating Input voltage 24VDC

Inputs .....8 Reader inputs

Outputs .....N/A

Max Power consumption ..... 45 Watts

Communications

Ethernet.....1 x 10/100 auto sensing

- Support for Hardwired TCP/IP Protocols TCP, UDP, ICMP, IPv4 ARP, IGMP, PPPoE, Ethernet
- 10BaseT/100BaseTX Ethernet PHY embedded
- Auto Negotiation (Full-duplex and half duplex)
- Auto MDI/MDIX
- ADSL connection (with support for PPPoE Protocol with PAP/CHAP Authentication mode)
- ECON OPI platform
- Supports up to 4 independent sockets simultaneously
- Internal 16Kbytes Memory for Tx/Rx Buffers
- 0.18 µm CMOS technology
- Serial Peripheral Interface(SPI MODE 0, 3) Multi-function LED outputs (TX, RX, Full/Half duplex, Collision, Link, Speed)

USB.....1 x USB 2.0 Mini-B

Wiring Summary

Each field wire connector includes the following:

1. Terminal 1 – LED 1
2. Terminal 2 – LED 2
3. Terminal 3 – Data 0
4. Terminal 4 – Data
5. Terminal 5 – Ground
6. Terminal 6 - + 5VDC
7. Terminal 7 – Beep

Model Numbers

ECS-3720B-RM .....Rack mount controller
ECS-3820B-PM .....Panel mount controller
